(a)
Force residual, $\Delta(FL^2/EI)$
Normalized displacement, δ/L
1-node, rms $= 5.3 \times 10^{-2}$
2-node, rms $= 2.4 \times 10^{-2}$
3-node (ours), rms $= 5.3 \times 10^{-5}$
(b)
Amplitude, $|\widehat{\Delta F^*}|$
Spatial frequency [cycles per unit δ/L]
1-node
2-node
3-node (ours)
node spacing, $N-1=49$
